CHOOSE A PAIR: "The Case against Free College" + "Why Free College Is Necessary"
OR "Why All Humans Need to Eat Meat for Health" + "What Philosophers Have to Say
about Eating Meat"

For the second essay this semester, each student will produce an analysis of a pair of articles that offers a contrasting point of view. It may be helpful to briefly summarize each article's main claims. However ... BE SKEPTICAL. Do not accept every point made by either article. Find fault with arguments and reasoning. Be a critical reader of both articles (even if you agree with one of them).

Ultimately, the key to this essay is to find your own voice in the debate. Do you think one side is more convincing than the other? Are both arguments weak? Or is there merit in both sides? Articulate a thesis statement that gives your stance.

In the first paragraph of your essay, be sure to state the titles of both articles, the full names of the authors, and information about when the articles were published.

A four-paragraph essay might be a good structure (but is not required). When you quote an article, cite page numbers thus: (325). There is no need for a list of works cited.
